The Next Best Day to Christmas!!!

Golf News!!

This week we will be working on release and face angle! Bring your Driver, and iron and a wedge. Your release will not only help with your direction, but having the correct face angle will help keep everything down the middle. We need to fine tune those swings for the Join the Turn Outing!

Fitness News!!

A recent lesson plan discussed eye health and how vision impacts our golf game. Although Cleveland is not the capital of sunshine, it is important to protect our eyes from dangerous ultraviolet rays. This week's golf fitness plan will focus on strategies to protect our eyes, both indoors and outdoors. We will also learn the pros and cons of different colored lenses and how they can benefit your golf game.
