PLAY DAY

With the beautiful weather that is forecasted for this week we will be planning another play day! Let's hope we can continue playing into November!

While everyone is out on the course, we want to remind you to make sure and slow down and take your time. We've been seeing a lot of fast swings lately, don't rush it! The faster you swing the more unbalanced you may become and the ball will not go how you want it to. Swinging nice and slow, within yourself, will allow you to hit that sweet spot, also known as the centeredness of contact. The more centered you hit the ball the higher, further and straighter it will go.

Please bring your entire golf bag, if you do not have clubs we will have some for you!
